It is expected the tables contain values of some quantities or variables; the text tables are not encouraged.

Notes and references

The list of references includes sources which can be easily checked by the referees and by the readers as well. The marginal sources without world visibility should not be included in the list of references. Nevertheless, if such sources are necessary to be cited, they should be put in the list of notes. This list should contain some additional explanations or marginal sources including internet addresses, preferably in portable document format (pdf). The position of notes within the text is marked by Arabic numerals as superscripts. Style of the list of references should conform to that of Publication Manual of American Psychological Association (APA style), widely used for such kind of publications: <http://www.calstate la.edu/library/guides/3apa.pdf>

Proofs

Before publishing the authors will have the opportunity to check the proof of their paper. The proofs should be corrected and returned to the Editor within a week. Major alterations to the text cannot be accepted.

Reprints

After publishing the paper, first in the online edition in the journal, the authors will have the possibility to make themselves an unlimited number of reprints of their articles using the PDFs sent to them.
